

CERTIFICATION
Pursuant to 47 C.F.R. § 54.312(c)

**Access Cable Television, Inc.'s Broadband Service Coverage
Certification In Support of the Company's
Opposition to Price Cap Carrier CAF Phase I, Round 2 Elections**

The undersigned hereby certifies under penalty of perjury that Access Cable Television, Inc. ("Access Cable") offers fixed broadband Internet access service of at least 3 Mbps downstream / 768 kbps upstream to current and prospective customers in the census blocks listed in Exhibit 1 (attached hereto).

This certification and accompanying exhibit is filed pursuant to the Commission's Connect America Fund (CAF) challenge procedures set forth in 47 C.F.R. §54.312(c), in support of Access Cable's opposition to CAF Phase I, Round 2 elections of Windstream Communications in the census blocks identified in Exhibit 1 (attached). The information set forth in Exhibit 1 was developed via a review of the company's billing records, operational records and through several site visits performed by the company's employees. The redacted billing information (customer address) set forth therein establishes that Access Cable provides broadband service in the eight census blocks identified by Windstream for support. Because Access Cable provides broadband service in such areas, the Commission should deny Windstream's request for support in these areas.

Roy L. Baker, President

ACCESS CABLE TELEVISION, INC.
